

Write the approximate coordinates of the following symbols: *Latitude is always written first!*

	45°N, 30°W		45°S, 15°E
	22°N, 15°W		30°N, 45°E
	68°S, 70°E		50°N, 10°W
	40°N, 55°W		2°N, 30°E
	0°, 0°		60°S, 60°W

1. What is the latitude/longitude of location A. 0°, 0°
2. What is the latitude/longitude of location B. 40°N, 80°W
3. What is the latitude/longitude of location D. 20°S, 140°E
4. What is the latitude/longitude of location E. 40°N, 0°
5. What is the latitude/longitude of location G. 20°S, 50°W
6. In what hemisphere is location G. South west
7. What is the latitude/longitude of location H. 40°N, 125°W
8. What is the latitude/longitude of location J. 60°N, 60°E
9. What is the latitude/longitude of location K. 40°S, 100°W
10. What is the latitude/longitude of location L. 0°, 60°W
11. What is the latitude/longitude of location M. 50°N, 60°E
12. What is the latitude/longitude of location N. 50°N, 30°W
13. In what hemisphere is location N. Northwest
14. What letters are located on the same line of latitude? HBEC / FLA / GD / KI / NM
15. What letters are located on the same line of longitude? EAI / JM /
